CLÉMENT TARDY

ENSEEIHT • MF2E

Engineering Student

Lyon / Toulouse, France | **tardy.clmt@gmail.com** | linkedin.com/in/ **Clément_Tardy**

EDUCATION

M.Sc. in Engineering – Mechanical & Hydraulic Engineering – **ENSEEIHT (Toulouse INP)** **2026 – Present | Toulouse, France**

Department MF2E • Major: Fluids, Energy & Processes

- **Continuum mechanics & thermofluid systems:** aerodynamics, turbomachinery thermodynamics, heat transfer, internal and external flows.
- **Reliability & propulsion systems:** structural stress analysis, numerical simulation, and technical diagnostics for fleet management and MRO.

Intensive Preparatory Classes (CPGE) – **Lycée Claude Fauriel** **2023 – 2026 | Saint-Étienne, France**

Major in PCSI / PC (Physics, Mathematics & Chemistry) – Top-tier national competitive tracks

- Strong scientific foundation: solid mechanics, kinematics, thermodynamic cycles, partial differential equations, and matrix calculus.
- Analytical rigor, strong attention to detail, structured methodology, and proven ability to deliver high-quality work under time pressure.

French Scientific Baccalaureate – **Honors** **Obtained in 2023**

Specialties: Physics & Chemistry, Mathematics, Engineering Sciences — Advanced Mathematics option

OPERATIONAL EXPERIENCE & CRISIS MANAGEMENT

Military Operational Reservist — Rank of Brigadier (Corporal) – **French National Gendarmerie** **Since 2026**

- **CIRT tactical reinforcement missions:** deployed with the Territorial Reserve Intervention Company; operating effectively under high stress with strict compliance with standard operating procedures (SOPs).
- **Extended security & defense operations:** multi-week missions assigned to national border security and civilian population protection task forces.
- **Key competencies developed:** team cohesion, discipline, composure, and rigorous operational execution directly transferable to aircraft fleet airworthiness and maintenance operations.

Restaurant Server (Seasonal) **July 2024**

TECHNICAL SKILLS & LANGUAGES

Programming: Python, Fortran 90 (scientific computing & physical modeling).

Hands-on Mechanics: Inquisitive with solid DIY skills; proficient with hand and power tools, mechanical assembly/disassembly, troubleshooting, and repairs.

English: **B2 Level** Professional proficiency (technical documentation & flight manuals).

Other Languages: Spanish (**B1**), Mandarin Chinese (elementary / in progress).

OPERATIONAL RIGOR, ENDURANCE & AVIATION

Competitive Cycling (10+ years) & Ironman Triathlon Training **Self-Surpassing & Resilience**

- **Competitive road cyclist for over 10 years:** rigorous weekly training discipline, race strategy, mental grit, and physical endurance over long efforts.
- **Active Ironman triathlon preparation:** long-term macrocycle planning, self-pacing over extreme distances, and continuous pursuit of high performance.

Private Pilot License (PPL) & Aeronautical Initiation Certificate (BIA) **General Aviation**

- **Aviation culture & human factors:** in-depth understanding of aircraft systems, strict pre-flight checklist execution, situational awareness, and disciplined in-flight decision-making.
